Criminally Assaulted Shooting Victims

Non-Fatal Shootings: 3
 Fatal Shootings: 1
 Total Shootings: 4

Shots Fired Calls

Informal Report: 97
 Case Report Generated: 54
 Total: 151

NIBRS disclaimer:
 The data represented in the following report was obtained through the National Incident-Based Reporting System (NIBRS). The South Bend PD has been certified in NIBRS since August 1, 2018, as of January 1, 2021, NIBRS became the national standard for law enforcement crime data reporting in the US. NIBRS allows more than one offense to be reported within the same incident whereas prior to NIBRS, only the most serious [hierarchy rule] offense was reported (even though other crimes were still listed/included in the case report(s) narrative(s)). NIBRS also collects detailed information for each incident, like date, time, location of incident, victims, suspects, and relationships between victims and suspects; where prior to NIBRS, Uniform Crime Reporting (UCR) did not.

Informal Report Definition:
 An informal [electronic] report is where South Bend Police respond to a call for service, investigate the call, and based on the investigation, a case report is not generated because no victim(s) and/or criminal evidence was located at the time. However, the response and actions are memorialized and documented in this informal electronic report.
